

Green Street – Creating a Movement in Sustainability Education

How do we support students in changing the world?

Is there an easy way to offer students high quality environmental learning opportunities?

Long Canada's trusted clearinghouse for quality environmental education programs, Green Street is bringing together new partners and comprehensive online tools to change the way we approach sustainability education.

Join us for engaging conversation, live demonstrations of Green Street Virtual Classrooms and a series of special events with invited guests, then have your say on our streaming mosaic board or by leaving us a video message online.

*What's **your** Green Street?*

- **ArtsSmarts Teachers**
 - Join our ArtsSmarts teachers as they share experiences and tour guests through an exhibit of student art work.
- **David Buckland and Cape Farewell Students (Moderated)**
 - Artist, filmmaker and founder of the Cape Farewell Antarctic Youth Expedition David Buckland will share stories, experiences and lessons learned in a moderated discussion. David will be joined by some recent graduates of the Cape Farewell expeditions.
- **Virtual Classrooms & Community Centre Demos**
 - Join our interactive demonstrations of the new Green Street Virtual Classroom and Community Centre – innovative solutions for sharing ideas and programs with colleagues, connecting students in dynamic, meaningful ways, and bridging the gap in sustainability education between passive learning and active engagement.
- **Student Activities**
 - Our student ambassadors will be animating a number of fun activities on-site at our booth and around the Congress – including our special team of roving reporters!
- **Book Launch - Young people, education & sustainable development: Exploring principles, perspectives, and praxis**
 - McConnell Fellow Philip Osano, together with co-editor Peter Blaze Corcoran, bring together 38 essays co-authored by 68 contributors from 25 countries, representing a diversity of geography, gender and generation. Together, these stories reveal a tapestry of experience shared by youth worldwide. Join us as we launch this exciting publication with readings, a conversation with the editors and light refreshments.
- **Book Launch – Slow Death by Rubber Duck: How the Toxic Chemistry of Everyday Life Affects Our Health**
 - Executive Director of Environmental Defence Canada Rick Smith, together with environmental professional and Ivey Foundation President Bruce Lourie and veteran grassroots organizer, political staffer and campaigner Sarah Dopp, combine their talents

to explore how the toxic chemicals in everyday products leech into our bodies. The launch will feature readings and activities, light refreshment and a signing with Mr. Smith.

- **In Conversation with Louise Chawla / Rick Kool**
 - Louise Chawla and Rick Kool join us for a lively discussion of current issues, trends and future directions of sustainability education in Canada.
